### *C-Transform* - Value Creation with Expert Interim Management

I turbo-charge your projects, take the pressure off yourself and safeguard achievement of your strategic and financial objectives. I deliver professional results, for example in Business Transformation, Post-merger Integration/Carve-out, and Executive Finance.

In implementation of your projects, I rely on my broad process know-how gained in CFO-roles; as a CFO I apply my rich transformation experience: *C-Transform* is your all-in-one value creation package combining CFO-knowledge and understanding of transformation processes for the perfect fit with your strategic challenges.

For three decades, I have reliably and swiftly managed challenges in multiple industry sectors (Chemicals, Automotive, Plant Engineering & Construction, Life Sciences, FMCG including e-commerce, Food and Professional Services). Customers trust me; hence they assign me key interim management roles in project or line management functions.

I have managed large international teams with most diverse backgrounds. Situational leadership, considering each individual's strengths and requirements, forms an integral part of my skill set.

I implement the C-level agenda.

### Proven Elements from my Toolbox

- **Business Transformation:** PMO functions; design, implementation and management of transformation, restructuring and change projects, e.g. site closures, staff reduction, production transfers, changes in organization, processes and task allocation, profitability improvement by portfolio management, strategy development and implementation.
- **Post-merger Integration / Carve-out:** Operative integration of acquisitions, or organization of spin-offs. PMO set-up and management, project and synergy planning, process definition and implementation, works council negotiations, change management, communication, and coordination of ERP roll-out projects.
- **Executive Finance:** Finance leadership positions in complex enterprise structures and/or international businesses (CFO, Director Controlling); BPO Finance
